Time Management Tips

- ⇒ Prioritize Wisely: Know everything that is on your plate, and what needs to be done first
- ⇒ Say No: Know when to say no to plans or events if you need time to study or have personal time
- ⇒ Remove Distractions: Remove yourself from a loud or distracting environment; if possible, change up your environment for a new perspective
- ⇒ Take Care of Yourself: Make sure to schedule time for yourself—mental health is just as important as physical health

Student Portal

Students can now log onto their Student Portal to see:

- Grades of previous classes
- Attendance reviews by class and date
- Student ledger & account balance
- Class dates

 I AM A NURSE

About a Nurse

"I'm a close relative, and I did some research on the Internet about his condition, so I feel I'm more qualified to take care of him than some nurse."

Normal person.

Normal person in nursing school.
