

Theory SKILLS CHECKLIST

Student Name: _____

Program Start Date: _____

LPN PROGRAM N101

Skill / Topic	Student performs skill independently	Can verbalize skill and/or simulate appropriately
<i>If clinical opportunity not available, use last column as needed</i>	(DATE & Verifier's Initials)	(DATE & Verifier's Initials)
INFECTIOIN CONTROL		
Standard Precautions		
Donning exam gloves		
20-Second Hand washing		
Two-Minute Hand washing		
Preparing a Sterile Field		
Donning sterile gloves		
Isolation gown		
Donning a mask		
Removing isolation gown		
Removing mask		
Double Bagging		
Isolation Precautions: Airborne		
Isolation Precautions: Droplet		
Isolation Precautions: Contact		
Isolation Precautions: Neutropenic		
PHYSICAL ASSESSMENT		
Measuring Height and Weight		
Neurological & Musculoskeletal		
CARDIOVASCULAR		
Obtaining a Blood Pressure		
Obtaining an Apical Pulse		
Obtaining a Radial Pulse		
Obtaining a Carotid Pulse		
Obtaining a Brachial Pulse		
Obtaining a Pedal Pulse		
Obtaining a Femoral Pulse		
Obtaining a Tibia Pulse		
Obtaining a Popliteal Pulse		
Obtaining a Temporal Pulse		
Measuring Body Temperature: Oral		
	Student performs skill	Can verbalize skill and/or

	independently (DATE & Verifier's Initials)	simulate appropriately (DATE & Verifier's Initials)
Measuring Body Temperature: Tympanic		
Measuring a Body Temperature: Rectal		
Measuring a Body Temperature: Axillary		
Obtaining a Respiratory Rate		
HEAD & NECK		
SKIN & HAIR		
Temp, Turgor, Color, texture		
Lesion, Injuries, Full body check for pressure ulcers		
THORAX AND LUNGS		
ABDOMEN		
Wound-Vac dressing change and maintenance		
Administering Oxygen		
Applying a Bandage: Spiral		
Applying a Bandage: Stump		
Applying a Bandage: Figure-8		
G-Tube feeding		
SAFETY and ADL's		
Soft Wrist or Ankle Restraints		
Gait belt , Posey chest vest		
Mummy wrap (use doll)		
Teaching Cane, Crutches, Walker		
Hoyer type lift		
<i>Review CNA Skills as needed, integrating nursing process skills</i>		
Bathing and Back Rub		
Administering Oral Hygiene		
Positioning Patients		
Performing ROM exercises		
Moving the Patient		
POSSIBLE OTHER PROCEDURES— MARK IF ENCOUNTERED		
May add any skills/experiences below not listed elsewhere		
Care of Body After Death		
Admitting a Patient		
Transferring a Patient		
Discharging a Patient		
Performing an Electrocardiogram		
Facility Fire Drill		
Facility Disaster Drill		
Infusion of blood or platelets		
Nasal Irrigation and Culture		
Theory Instructor N101 Name & Initials	Clinical Instructor N101 Name & Initials	Clinical or Lab Instructor Name & Initials

This document must be fully completed (signed and dated) submitted to your class coordinator. Failure to do so will result as an incomplete for N101 semester.
